

BALAJI K

Software Engineer | Application Development

+91 6381465990 | balalleyla28@gmail.com | linkedin.com/in/balaji-k-iot | github.com/balajik522 | leetcode.com/u/balajik5604

PROFESSIONAL SUMMARY

Motivated Computer Science undergraduate with strong knowledge of Java, Object-Oriented Programming, SQL, SDLC, and software engineering fundamentals. Hands-on experience through internships in API testing, debugging, frontend development, and database integration. Passionate about application development and maintenance, writing maintainable code, solving problems, and collaborating within Agile teams. Quick learner with strong analytical and communication skills, eager to contribute to enterprise software projects.

EDUCATION

B.E. Computer Science & Engineering (IoT & Cyber Security Including Blockchain)

2022 – 2026

SNS College of Engineering | CGPA: 7.82

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML, CSS

Frameworks: React

Concepts: OOP, SDLC, Requirement Analysis, Database Design, Debugging, REST APIs, CRUD, Exception Handling

Tools: Git, GitHub, Eclipse, VS Code, Postman, Excel

Methodologies: Agile Fundamentals

INTERNSHIPS

EcLearnix EdTech Pvt. Ltd. — Full Stack Developer Intern

- Performed API testing using Postman and validated application functionality.
- Assisted in frontend feature development and SQL database integration.
- Debugged issues and supported software maintenance activities.

Falcon Software Solution Pvt. Ltd. — Web Development Intern

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved UI components, tested features, and collaborated with the development team.

PROJECTS

Java Bank Management System

- Developed a banking system using Java, JDBC, and SQL implementing account creation, deposits, withdrawals, balance enquiry, fund transfer, and transaction history.
- Applied OOP principles, modular design, and exception handling.

SmartJobTracker ATS

- Developing an AI-powered job application tracker featuring authentication, resume management, an analytics dashboard, and CRUD operations using React, Java, and SQL.
- Designed a scalable database schema and modular architecture following software engineering best practices.

CERTIFICATIONS

- Java (OOPs) — PreplInsta
- HTML & CSS — PreplInsta
- Cyber Hygiene — ISEA
- Azure AI Fundamentals — Microsoft
- Cyber Security — NPTEL
- Distributed Cloud Computing — NPTEL
